Terms and Conditions of Use of the NMRLab/MetaboLab Software

1. Definition of the Software

The software authors developed the NMRLab/MetaboLab software package as a software tool for multi-dimensional NMR data processing with a focus on metabolomics data processing and metabolic flux analysis. The NMRLab/MetaboLab Software is composed of MATLAB program files (m files) and precompiled program files (p files). Documentation is available online at http://nmrlab.org.uk. NMRLab/MetaboLab is a software package that operates under the framework of the commercial software MATLAB (The Mathworks, Natick. NMRLab/MetaboLab was tested for compatibility with MATLAB releases 14 to 2011b under Mac OSX 10.7, GNU/Linux (Ubuntu 11.04) and Microsoft Windows 7. To use NMRLab/MetaboLab, the recipient must obtain separate licenses to use MATLAB.

2. License Agreement

I hereby accept and agree to all of the following:

i)   The software is provided to you free on a non-exclusive basis.
ii)   The software will be operable for a period of 12 months from dispatch to you.
iii) The software shall only be used for non-commercial academic research by yourself and the members of your immediate research group (if any).
iv)   The software and derivatives thereof shall not be used for collaborations with a third party with commercial interests.
v)   For commercial purposes a royalty bearing license must be acquired from the Licensor. For a standard commercial license we assign a value £50000.
vi)   You may not transfer this software to any third party or to anyone in your organisation that is outside the control of your immediate research group.
vii) You will not disassemble, reverse compile or reverse engineer the software.
viii) If you make any improvements to the software, you will inform the Licensor, as soon as is practicable, of these improvements and agree to provide the software authors with a free non-exclusive sub-licensable licence to the improvements.

Terms and Conditions of Use of the NMRLab/MetaboLab Software

ix) The Licensee has the right to publish or present the results of the research work performed in accordance with this license. For any publication arising from work using the NMRLab/MetaboLab software the MetaboLab publication shall be cited (MetaboLab - advanced NMR data processing and analysis for metabolomics. C.Ludwig and U.L. Günther, *BMC Bioinformatics*, **12**:366 (2011)). For oral publications or posters the MetaboLab publication is to be acknowledged. The licensee shall submit copies of such publications to the Licensor.

x) Ownership, intellectual property rights and all other rights in and to the software shall remain with the software authors and with University of Birmingham.

xi) You shall be solely responsible for how you use the software and no support shall be provided by the authors or the University of Birmingham.

xii) The software is provided "as is" and to the maximum extent permitted by any applicable laws, no liability is accepted for any errors or omissions howsoever caused whether of a direct or indirect nature.

xiii) You shall only install this software on up to 10 different computers at any one time.

xiv) You shall only make one copy of the software as a back-up copy.

xv) You shall only use the software in a manner that complies with all applicable laws in the jurisdiction in which you use the software, including, but not limited to, applicable restrictions concerning copyright and other intellectual property rights.

xvi) This agreement is effective from the date you receive the software.

xvii) This agreement shall terminate automatically once the software becomes non-operable except for those terms, which might reasonably be interpreted as surviving termination.

xviii) This agreement shall be interpreted in accordance with and governed by the laws of England.

Please either fax this license agreement to +44-121-414-8357 or email it to C.Ludwig@bham.ac.uk
